Guest Lectureship (Fully Funded)

Environmental Campus Birkenfeld,
Trier University of Applied Sciences

The Institute for Applied Material Flow Management (IfaS) is seeking to hire a fully funded guest lecturer for two semesters (summer 2026 & winter 2026/27), supported by the German Academic Exchange Service (DAAD).

The guest lecturer will teach in the postgraduate master's programme, **International Material Flow Management (IMAT)** & in the undergraduate programme **Sustainable Business and Technology (SBT)**.

Ideal Candidate Profile:

- Should be a foreign university staff member with a **Doctorate in Water & Wastewater Management**
- Teaching experience in **English** and demonstrated **intercultural competence**
- Available to relocate to Germany for **1–2 semesters**

Benefits:

- Employment at Trier University of Applied Sciences
- Remuneration based on **TV-L West (Rhineland-Palatinate)**
- Mobility allowance and support with accommodation and administrative procedures
- Professional and international networking opportunities

We cordially invite qualified lecturers from our partner universities to apply for this visiting position at the greenest university in Germany, and the 4th worldwide for sustainability.
